

## Horizon Europe Pillar I: Seminar on ERC Funding Opportunities by Dr. Claudia Alves de Jesus-Rydin

22. 02. 2024 h. 10.00 – 13.00

*Blended meeting: Sala Manfredi – Palazzo Poggi (Via Zamboni, 31) /Microsoft Teams*

*Alma Mater Studiorum – Università di Bologna*

The European Research Council (ERC) is the European Union body that promotes and supports excellence in scientific research by funding ambitious frontier projects with significant impact on their respective disciplines. ERC projects are funded on the basis of project ideas submitted by researchers with internationally recognized curricula, in any field of science, without predefined research topics, and evaluated on the basis of scientific excellence only. The purpose of this meeting is to raise awareness about these funding opportunities. Particular attention will be given to ERC evaluation procedure and criteria. The seminar will be held by Claudia Alves de Jesus-Rydin, ERC Senior Programme Officer.
